

# Toilet Fizzy Bombs

## What You Need

- ¾ Cup Cornstarch
- ¾ Cup Baking Soda
- ¼ Cup Citric Acid
- ¼ Cup Super Washing Soda
- Spray Bottle
- 2 ½ Oz. Water
- 10 - 15 Drops Essential Oil, Any Scent
- Rubber Gloves
- Candy or Small Soap Mold

## Directions

In a large bowl, mix the cornstarch, baking soda, citric acid, and washing soda. Mix water and essential oil in the spray bottle. Put on rubber gloves. Spray cornstarch mixture with water mixture. Add the water slowly while you're mixing with your hands. The mixture should be able to hold its shape when squeezed in your hand. Press the mixture in the mold. Make sure to remove any air bubbles by pressing firmly. Let mixture completely dry for at least one hour. I place these in the tank of my toilet every few uses. When flushed the washing and baking soda help keep the toilet bowl clean and the oil keeps the toilet smelling great!

\*This batch made about 40 fizzies with the mold I used. If the mixture gets hard between batches, add a little more water mixture.
